Precision Competence Innovation

Setting Big Things into Motion – Our Passion and Our Success.

Alwin Ehrensperger
Management

Our innovations set standards. We develop and produce high-quality industrial controllers for cranes, electro hydraulics, material handling technology, industrial applications, ships, trains and construction machines. Our product assortment is distinguished by high performance joysticks with electronic interface adapters for all machines.

Gessmann is an international market leader. Our market success is based upon our decisive focus on innovative product development and the highest quality standards. We are able to lead the market thanks to the continuous further development of our products and services. This allows us to secure the long-term success of our company.

Our Product Portfolio

- Multi-axis controllers, double handle controllers, single-axis controllers, control switches for hoisting equipment, electro hydraulics, material handling technology and remote control applications
- Pedal controllers for welding machines, vehicles and railway vehicles
- DC contacts, signal cam controllers for high voltage systems
- Gear limit switch for hoisting equipment
- Master switches, consoles and control units for railway vehicles
- Customer-specific developments for control units and electronic units for all machines and vehicles
- Complete control units, portable control units, pedant control units including cabling for all types of cranes, vehicles and industrial applications
- Displays for forklifts and construction machines
- Proportional electronic control systems for magnetic valves
- Control panels for construction machines, industrial applications, vehicle and harvesting machines
- Interface electronics with digital and analog outputs for our controllers
- Control columns, ship controllers, sensor units and actual value transmitter for ship drives
- Interface electronics with profi-bus interface or CAN-bus interface for our controllers (input and output cards)

The following product illustrations will show a selection of our comprehensive assortment.

Gessmann in Facts.

Company Location

Leingarten is located in Baden-Württemberg, has approximately 11,000 inhabitants and is located about 6 kilometers to the west of Heilbronn.

Heilbronn is a modern industrial city (electronics, machine construction, automotive, retail and winegrowing) with approximately 122,000 inhabitants.

Management

Alwin Ehrensperger, Dipl.-Ing. (FH)/MBA

Number of Employees

Approx. 550 employees

Export Share

48% direct export as well as 80% direct and indirect export

Marketing Systems

We work with professional agents within Germany.

We are represented abroad by efficient engineering offices working as import companies.

We have offices in Scandinavia and France. More establishments are Canada, India and China.

Highly qualified sales engineers from our main office support our partners both within Germany and worldwide.

Additionally we also have partner companies in Brazil and in the United States.

Company Structure

All of our products are developed, designed and partially assembled in our plant in Leingarten and exported worldwide.

Tool-based plastic and cast metal parts are manufactured with Gessmann tools by our suppliers.

Machine-based individual parts are manufactured in our plant using state-of-the-art CNC machines.

Quality Assurance

Our management is certified in accordance with: DIN ISO 9001-2000

International Railway Industry Standard (IRIS)

ECOfit
